Oct 18 – Oct 20, 2017 – Malta

## Be a Sponsor at ISOS-10!

The International Summit on Stability of Organic and Perovskite Solar Cells will take place on October 18 to October 20 2017 in Malta.

ISOS has been running since 2008 and has rapidly become one of the most attended workshops in the field, bringing together an expert community both from industry and academia. Different sponsorship opportunities are offered to help you find the most effective manner to connect with our attendees and your target group.

Our sponsorship package opportunities offer prominent exposure (some possibly exclusive) or possibility of co-sponsorship of breaks and social event/s with €600 and/or €1000 packages, a combination of both or a multiple with pro-rata benefits depending on the size of sponsorship. Please note the level of available slots for sponsorships. Logo displays will be prominently displayed on the relevant dissemination materials and will appear in the order of booking and level of sponsorships.
